PROJECTS

Sorting Visualizer

React.js, JavaScript, CSS

- Developed an **interactive web application** to visualize **sorting algorithms** with real-time animations.
- Implemented **dynamic state management** to track comparisons, swaps, and array updates.
- Added controls for **array size** and **animation speed** to enhance usability.
- Designed a **responsive UI** demonstrating **algorithm performance** and time complexity.

URL Shortener

Spring Boot, MongoDB, Java

- Built a **scalable URL shortening service** using Spring Boot and MongoDB.
- Generated **unique short URLs** and implemented efficient HTTP redirection.
- Developed **RESTful APIs** using **Controller–Service–Repository architecture**.
- Optimized **database queries** for faster retrieval using Spring Data MongoDB.

Expense Tracker

HTML, CSS, JavaScript

- Developed a **client-side expense management system** to track income and expenses.
- Implemented **CRUD operations** using JavaScript and DOM manipulation.
- Calculated **real-time financial summaries** including balance, income, and expenses.
- Used **LocalStorage** for persistent data storage without backend integration.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python

Web Development: React.js, Node.js, Express.js, Spring Boot

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, MS Excel

Core Concepts: Data Structures & Algorithms, OOPs, REST APIs, System Design, Machine Learning

CERTIFICATIONS

- **GitHub Foundations Certification – Git, Version Control, Collaboration**
- **Data Structures & Algorithms – Abdul Bari (Udemy)**
- **Ethical AI Certification – IBM**

ACHIEVEMENTS

- Achieved **Pupil rating** on Codeforces.
- Solved **500+ DSA problems** across coding platforms.
- Secured **2nd position** in Code Battle 2025.
- Served as **Class Representative** for 3 semesters, demonstrating leadership.
